## HOME DESIGN TREND

### *Clutter Free Bathrooms*

Imagine entering your bathroom to see clean, clear surfaces, freshly folded towels and just a few carefully chosen bath products beside the sink. A small vase of flowers brightens up the windowsill, and a tray resting over the tub holds a candle and essential oils, awaiting your next leisurely soak. If that image is far from the current reality of your bathroom, perhaps it's time for a fresh start.

### Happy New Year!

We hope you enjoyed the holiday season with your loved ones and stayed warm in this cold South Okanagan weather.

The new year brings many new changes to the real estate industry.

New Federal Regulations effective January 1st prohibit the purchase of residential properties by non-Canadians across Canada.

This is a two year ban and this regulation will be in effect until December 31, 2024.

The Government is implementing this ban in an effort to help cool housing markets and bring down prices across the country.

While the Real Estate Industry applauds any efforts towards tackling the housing crisis we are concerned that this policy will have little impact on the market as foreign buyers make up less than 4% of buyers.

Realtors are also concerned about retaliation from our United States and Mexican neighbours and that this policy does not align with the Federal Government's aggressive immigration target.

The market is still adjusting to the last 7 interest rate increases by the Bank of Canada.

Unit sales have slowed considerably as buyers and sellers alike adjust to the new market conditions while battling inflation.

While unit sales have slowed, the average sale price for a Single family home in the South Okanagan has increased by 7% YTD.

Proving once again the value and importance of home.
